

SILVERCUT®

PRODUCTION AND SPECIAL
PURPOSE CUTTING MACHINES
SINCE 1924

The hydraulic dry cutting machine RST-350 For the efficient trimming and cutting of steel cables

The dry cutting machine from the **RST-350 series** for cutting steel cables with a maximum diameter of 20 mm is characterised by a hydraulically controlled gripper feed with integrated workpiece/cable feed. The system can be operated fully automatically, which reduces the costs per cut to a minimum.

Automatic coil feed

All machines in this series are certified with the CE mark in accordance with EC Directive 2006/42EG.

Your advantages:

- + **Compact size**
- + **Easy operation**
- + **Flexible applications**
thanks to various cut-off lengths
- + **Automatic control**
of the coil and gripper feed
- + **Integrated disc balancing monitoring**
for constant circumferential speeds of the cutting disc, even when worn
- + **All feed parameters are adjustable**
during the cutting process
- + **Separately controlled walking beam**
- + **Quick changes and easy adjustments of the clamping shells**
to different workpiece cross sections

Automatic control of the coil and gripper feed.

Equipment features:

- ▶ Cross-sectional size of the parts to be clamped: 10 – 20 mm
- ▶ Cutting disc sizes up to a maximum diameter of 350 mm
- ▶ Variable speed control between 63 – 80 m/s
- ▶ Hydraulically controlled gripper feed with integrated feed unit
- ▶ Ready to connect to dust extraction and exhaust systems
- ▶ **Optional:** Discharge channel for depositing workpieces

Clamping diameters of 10 – 20 mm
with exchangeable retainers.

EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not just production and specialist cutting machines but also the appropriate testing technology to test surfaces as well as dimensional accuracy.

Cutting starts where sawing ends.

Good reasons for SILVERCUT ...

More than 40 years of experience
in cutting technology and more
than 2,800 delivered cutting
systems speak for themselves.

**We look forward
to hearing from you!**
