for your production

FTN-200 S compact gantry wet cut-off machine for the field of carbon fibre cutting and making up of flat components

The FTN-200 S gantry wet cut-off machine has been designed to cut panels and flat components made of carbon fibre and similar materials. It is suitable for the use of CBN diamond cutting discs.

Cutting device

Multiple disc fixings allow for multiple cuts.

The machine is certified with the CE mark in accordance with EC Directive 2006/42/EC.

Your benefits:

- + **Simple and self-explanatory operation of the controls**
- + **Optimal cooling / irrigation** thanks to large water distribution
- + **Good view of the wet cut-off machine's interior** thanks to additional side windows
- + **Infinitely variable control** of the drive and axle during operation
- + **Good accessibility** thanks to the large sliding door.
- + **Coolant filter system**

SILVERCUT®PRECISION CUTTING MACHINES
SINCE 1924**Equipment features:**

- **Workpiece sizes:**
500 x 400 x 30 mm
- **Cutting disc sizes:**
200 - 300 mm
- **Infinitely variable speed control:**
20 - 53 [30 - 63] m/sec
- **Travel distances:**
X-axis: 700 mm
- **Integrated clamping table**
- **Drive power:**
10 kW
- **Traversing axis with servomotor and driven ball screw**
- **Large coolant distribution system**
- **Integrated central lubrication**

EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not just production and specialist cutting-off machines but also the appropriate testing technology to test surfaces as well as for dimensional accuracy.

**Less paper!
More digital!**

Subscribe to our News + Innovations in an electronic format and help us to protect the environment.

**Good reasons
for SILVERCUT ...**

More than 45 years of experience in cutting technology and more than 2 800 delivered cutting systems speak for themselves.

**We look forward to receiving
your request!**

Cutting starts where sawing ends.
